LEADING ARTICLES

Administration

Guidelines for the Establishment of Fees for Physical Therapy Services. Burton, Betty, Dorothy R. Hewitt, Frances L. Patton, Dorothy A. Graves, Charles M. Magistro, and James B. McKillip, 45:730–733, July 1965.

Planning the Physical Therapy Department: Construction Program for Rehabilitation Facilities and Services. Burton, Leroy G., 45:1154–1157, December 1965.

Planning the Physical Therapy Department: Design and Construction. Magistro, Charles M., and J. Dewey Harnish, 45:1158–1161, December 1965.

Planning the Physical Therapy Department: Opening the Department. Hammer, Norman L., 45:1162–1164, December 1965.

Planning the Physical Therapy Department: Justification and General Cost of Space. Patton, Frances L., 45:1165–1169, December 1965.

Planning the Physical Therapy Department: Equipping the Department. Noland, Royce P., 45:1170–1174, December 1965.

Planning the Physical Therapy Department: Fiscal Aspects. McKillip, James B., 45:1175–1178, December 1965.

Amputations

Gait Analysis for Lower-Extremity Child Amputees. Ogg, H. Lorraine, 45:940–945, October 1965.

Arthritis

Physical Therapy for Rheumatoid Arthritis. Nickel, Vernon L., Jean Kristy, and Lucy V. McDaniel, 45:198–204, March 1965.

Cold Injury

Frostbite. Dobbs, Eunice R., 45:840–845, September 1965.

Communications

Discipline of Language, 45:497–501, May 1965.

Electrotherapy

Correlation of Chronaxy and Motor Nerve Conduction Velocity: Studies in Nerve Root Irritation, Burke, John F., 45:955–961, October 1965.

Gait

Gait Analysis for Lower-Extremity Child Amputees. Ogg, H. Lorraine, 45:940–945, October 1965.

Walking Preparation for Adult Patients with Hemiplegia. Brunnstrom, Signe, 45:17–29, January 1965.

Geriatrics

The Price of Our Success. Snow, C. P., 45:127–134, February 1965.

Growth and Development

Attitudinal Reflexes. Twitchell, Thomas E., 45:411–418, May 1965.

Normal Motor Development. Twitchell, Thomas E., 45:419–423, May 1965.

Variations and Abnormalities of Motor Development. Twitchell, Thomas E., 45:424–430, May 1965.

Hemiplegia

A Patient with Residual Hemiplegia and His Response to Treatment. Bobath, Berta, and Ester Cotton, 45:849–864, September 1965.

Force Platform for the Study of Hemiplegic Gait. Barany, J. W., A. H. Ismail, and K. R. Manning, 45:693–699, July 1965.

Motor Behavior in Hemiplegia. Michels, Eugene, 45:759–767, August 1965.

Sensory-Motor Testing: The Upper Limb of Adult Patients with Hemiplegia. Kent, Barbara E., 45:550–561, June 1965.

Walking Preparation for Adult Patients with Hemiplegia. Brunnstrom, Signe, 45:17–29, January 1965.

History

Evolution of the Wheel Chair. Conine, Tali A., and E. Fuchs, 45:995–999, October 1965.

Kinesiology

An Electromyographic Comparison of the Function of the Iliacus and the Rectus Abdominus Muscles: A Preliminary Report. Flint, M. Marilyn, 45:248–253, March 1965.

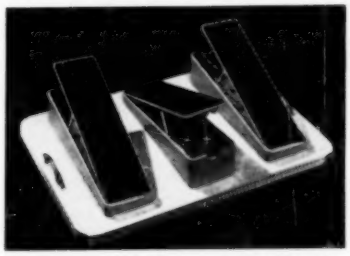
Rela-Wedgies

THE NEW
OPPOSED EXTENSION-STRETCH EXERCISER



Authorities agree that stretch exercises, when done with the body in proper poise, bring all the muscles into use and have true corrective and muscle toning value. Since much of the fatigue and tension is in the legs, trunk and neck, extension-stretch exercise in these areas is especially beneficial. Rela-Wedgies are now in use in Physical Medicine and Rehabilitation Depts. of Government Hospitals, by leading physiatrists and orthopedists, in athletic departments of accredited universities, and by doctors themselves as well as their patients.

SHOWN: Platform Model $25.00 each, postpaid
NOT SHOWN: Portable Model $15.00 each, postpaid

Rela-Wedgies are scientifically designed to make maximum use of the anatomic accepted extension-stretch principal.
